Business Management Information Systems

STATEMENT ABOUT ACADEMIC HONESTY AND INTEGRITY

All staff and students of the Namibia University of Science and Technology, upon signing their employment contracts and registration forms, commit themselves to abide by the policies and rules of the institution. The core activity of NUST is learning and in this respect academic honesty and integrity is very important to ensure that learning is valid, reliable and credible.

NUST therefore does not condone any form of academic dishonesty, including plagiarism and cheating on tests and assessments, amongst other such practices. NUST requires students to always do their own assignments and to produce their own academic work, unless given a group assignment.

Academic Dishonesty includes, but is not limited to:

- Using the ideas, words, works or inventions of someone else as if it is your own work.
- Using the direct words of someone else without quotation marks, even if it is referenced.
- Copying from writings (books, articles, webpages, other students' assignments, etc.), published or unpublished, without referencing.
- Syndication of a piece of work, all or part of an assignment, by a group of students, unless the assignment was a legitimate group assignment.
- The borrowing and use of another person's assignment, with or without their knowledge or permission.
- Infringing copyright, including documents copied or cut and pasted from the internet.
- Asking someone else to prepare an assignment for you or to write or sit an assessment for you, whether this is against payment or not.
- Re-submitting work done already for another course or programme as new work, so-called self-plagiarism.
- Bringing notes into an examination or test venue, regardless of whether the notes were used to copy or not.
- Receiving any outside assistance in any form or shape during an examination or test.

All forms of academic dishonesty are viewed as misconduct under NUST Student Rules and Regulations. Students who make themselves guilty of academic dishonesty will be brought before a Disciplinary Committee and may be suspended from studying for a certain time or may be expelled. All students who are found guilty of academic dishonesty shall have an appropriate endorsement on their academic record, which will never be erased.

COURSE INFORMATION

Course code and title:

BMC511S – Business Management Information Systems

Department:

Informatics

Faculty:

Faculty of Computing and Informatics

Programmes:

Bachelor of Computer Science

Bachelor of Informatics

Course duration:

One semester

Contact hours:

Item	Hours
Contact hours(theory)	45
(Tutorials)	12
Assignments	N/A
Class tests (2) + 1 Supplementary	N/A
Final examination	3 hours
Self-directed study	76

NQF level and credit:

15 Credits at NQF Level 5

Course description:

This course assists students identify the correlation between information systems (IS) and business performance. The use of information and communication technologies (ICT) by both individuals and organizations dominates the business world today. There is a fundamental change in the way organisations run businesses and interact with each other. New types of infrastructure and applications such as Enterprise Resource Planning (ERP), Customer Relationship Management (CRM), etc., are now in place in many organizations. The aim of this course is to introduce students to current and emerging technologies, and the use of information systems in modern business organizations particularly those technologies that cover information needs at the different management levels. The different systems used in organizations are discussed and investigated. The course incorporates practical exercises, case studies and exercises to enable students to apply concepts learned.

Page Break

Learning Outcomes:

The general outcome of the course is to demonstrate knowledge of information systems and their applications in modern businesses. Upon successful completion of this course the

student should be able to go through assessment activities and show evidence of their ability to:

· Demonstrate an understanding of the central concepts of information management systems at organizational level;
· Illustrate the multi-disciplinary nature of information systems and ethics relative to information systems;
·Compare and contrast different types of information systems and classify them according to various organizational frameworks;
· Demonstrate knowledge of how people use network computing and electronics to collaborate;
·Discuss the use and benefits of mobile computing;

Prerequisites:
None
Course equivalent:
N/A

Teaching/learning strategy:
Theory lecture, case studies, practical sessions, assignments and class exercises, class discussions, student presentations, self-guided learning.

Effective date:
17 February 2025

Lecturers:

Mr. Nkululeko Mthembo Email: nmthembo@nust.na (**Course coordinator)**Office phone: 061-207-2747 Office location: Polyheights (202) Office hours: Monday – Friday from 10:30- 4:30pm
Prof. Irja Shaanika Email: ishaanika@nust.na Office phone: 061-207-2620 Office location: HTTP 2nd Floor
Mr Sebastian Mukumbira Email: smukumbira@nust.na Office phone: 061-207-2895 Office location: FCI Building
Mrs Sinte Mutelo Email: smutelo@nust.na Office phone: 061-207-2648 Office location: FCI Building

Student readiness
Technology and equipment readiness:
This course will make use of existing technology within NUST. Lecture halls and computer laboratories will be made available for teaching and learning activities. The use of the internet and library resources as sources of information is highly encouraged.

Student commitments and contact times
All students are expected to:

- Attend all classes as scheduled on their timetables unless otherwise stated by the course coordinator. Any changes to the time slots will be communicated to students by the course coordinator.

- Have at least an 80% attendance record to be able to sit for the exams.
- Go through their notes and other study materials from a previous class session before commencement of a class.
- Avoid any disruptions (such as mobile phones, browsing the net, chatting to each other) during the class unless requested to do so by the lecturer.
- Attend practical sessions/ tutorials in designated rooms and submit reports on time.
- Submit all assignments on due date and signed for them.
- Avail themselves for Test 3 if they have missed either of Test 2 or Test 1 for a valid reason.
- Avoid any plagiarism as those caught will be dealt with according to the FCIpolicy on plagiarism.
- Submit two Quizzes and two tests.

Course Outline

Semester Week	**Topic**	**Tutorial, Quizzes, Tests, Assignments, Class Activities**
Week 0 6 February – 10 February	Course Overview, Class Procedures	
Week 1 12 February –16 February	**Information Systems in Business Today** • Basic Computer usage & functionalities • Role of Information systems in the business world today • Perspectives on Information Systems	Tutorial 1
Week 2 19 February –23 February	**Global Business and Collaboration** -Business Processes and their relation to Information Systems. -Types of Information Systems for collaboration	Tutorial 2
Week 3 26 February– 01 March	**Information Systems, Organisations & Strategy** - Features of organizations Porter's competitive forces model The business value chain model	Quiz 1

Week 4 04 March – 08 March	e-commerce –digital markets • Types of eCommerce • eCommerce **business models** e-commerce revenue models	Quiz 2
Week 5 11 March – 15 March	IT infrastructure and emerging technologies • Components of IT infrastructure • Emerging technologies in IT infrastructure • Management issues in IT infrastructure	Tutorial
17 March	**TEST 1**	Section A & B Fulltime Aud 1# Parttime 5:15 PM
Week 6 24 March – 28 March	Ethics and Social Ills in Information Systems • Ethics principles • Information systems and privacy • Property rights and intellectual property (IP) • Examples of liability laws in information systems	
02 April- 05 April	**MID-SEMESTER BREAK**	
Week 7 08 April – 12 April	Foundations of business intelligence -Challenges of managing data resources -Database management systems -Business intelligence infrastructure	Tutorial
Week 8 14 April – 18 April	Securing of Information systems • Areas of vulnerabilities in information systems • Hackers and computer crime • Information systems controls • Tools and technologies for safeguarding information resources	
14 April	**TEST 2**	Section A & B 17:15
28 April	**Supplementary Test**	Section B Fulltime Aud 1# Parttime 5:15 PM

NOTE: The following dates are subject to change based on the needs of the students at the lecturer's prerogative. Students will be notified ahead of time of any changes.

Date	Important information
15 March	Quiz 1 Online
Mon – 17 March 17:15PM	**TEST 1 - Engineering Basement Sect A and B PT- Aud1**
Mon – 14 April 17:15 PM	**TEST 2 - Engineering Basement Sect A and B ALL**
21 April	Quiz 2 Online
Mon 28 April 17:15	**SUPPLEMENTARY - Engineering Basement Sect B Aud1**

Assessment and Evaluation:

The course will be assessed using diversified Continuous Assessment as well as a final examination at the end.

- 2 Tests
- 2 QUIZ

Total Course Mark: 100%

A minimum Final Mark of 40% is required to attend Final Examination of the course.

Assessment Tasks	Weighting
Quiz 1 and Quiz 2	30%
Test 1	35%
Test 2	35%
TOTAL	100%

Quality Assurance Arrangements:

The moderation of all assessment will be done in accordance with the NUST's general rules and guidelines on moderation.

Course Policies

General Academic Policies:

It is the student's responsibility to be familiar with and adhere to the NUST's policies. These policies can be found in the NUST Prospectus or online at www.nust.na/prospectus.

Supplementary Policies:

Two copies of assignments should be submitted to the class lecturer. One should be a printed hard copy. The soft copy must be saved in the drive that is indicated on the assignment question paper. All late assignments will not be accepted after the due date and time and thus marked as 0%.
